Noocyoo cusub oo COVID-19 ah

Nooc cusub oo cudurka korona-fayras ah ayaa soo baxay. In kasta oo markii ugu horreysay lagu ogaaday Boqortooyada Ingiriiska, haddana waxaa laga helayaa dalal badan oo uu ku jiro dalkayaga. Saraakiishu waxay filayaan in nooca cusub lagu ogaan doono Vermont dhawaan. Isbedelada feyraska waa wax caadi ah, sida noocyada kala duwan ee hargabka sanadba sanadka ka dambeeya soo baxa, laakiin waxa noocaas ka dhigaya inuu ka duwanaado kuwa kale yaa ah inuu si dhaqso leh u faafayo marka loo eego COVID-19 orijinaalka ah. Weli waxaa jira waxyaabo badan oo aan la ogeyn oo ku saabsan halista noocyadan cusub ee COVID-19 xilligan la joogo. Tani waxay ka dhigan tahay in xubnaha bulshadeena ay ku jiri karaan halista sii kordheysa oo ah inay qaadaan fayraska, dad badan ayaa laga yaabaa inay isbitaalka la jiifiyo, waxaana arki karnaa dhimashada Vermont oo sare u kacaysa. Macluumaad dheeraad ah iyo warbixin ku saabsan noocyada cusub ee COVID-19 ka hel bogga internetka ee CDC.

Qaybinta Tallaalka

Sida qaarkiin laga yaabo inaad maqasheen, hada waxaa jira laba talaal oo COVID-19 ah kuwaas oo loo fasaxay in laga isticmaalo Mareykanka, Moderna iyo Pfizer. Halkaan waxaa ku qoran waxyaabo yar oo ay tahay in la ogaado:

- Vermont waxay kujirtaa marxaladaha hore ee qaybinta talaalka, halkaas oo loogu qeybinayo shaqaalaha safka hore kaga jira caafimaadka iyo dadka ku jira goobaha daryeelka caafimaadka

ee muddada dheer. Kooxda ku xigta ee qaadanaysa tallaalka waxay u badan tahay inay noqdaan xubnaha ugu da'da weyn ee bulshada ka tirsan iyo dadka halista ugu jira cudur daran.

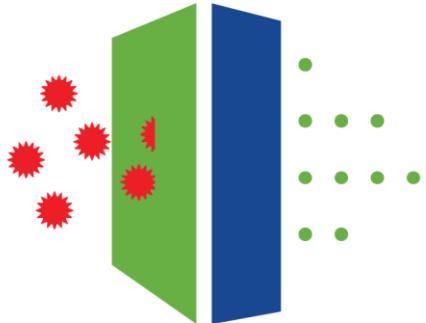

- In ka badan 20,000 oo qof oo ku nool Vermont ayaa helay tallaalkoodii ugu horreeyey tan iyo illaa 8^{ka} Janaayo, wayna sii kordhi doonaan maaddaama Gobolku sii heli doono qiyaaso badan oo tallaalka ah.
- Tallaallada hadda la ansixiyay waxaa lagu bixiyaa laba doos/qiyaas oo kala gooni ah, oo u dhexeeysa saddex illaa afar toddobaad.
- Weli ma ogin goorta tallaalka si ballaaran loo heli doono. Qiyaasaha qaranka ee ku aadan si baahsan u helitaanka tallaalka ee loo heli karo guud ahaan dadweynaha waxay ka bilaabanaysaa laga bilaabo Abriil ilaa bartamaha xagaaga 2021. Carruurta da'doodu ka yar tahay 16 sano, inay helaan tallaalku waxay qaadan kartaa xitaa wakhti intaas ka dheer maaddaama daraasadaha wali lagu sameynayo kooxaha da'da yar.
- Tallaalladaan gaarka ah waa tallaalada mRNA (Messenger RNA), kaas oo wax bara tilmaamana u dira unugyada jirkeena si ay ula dagaalamaan infekshinka. mRNA weligiis ma galo gudahaa (nucleus) unugyada jirka, halkas oo ah halka lagu keydiyo walxaha hide-sidaha ah; saamayn kuma yeelan doonto ama ma beddeli doonto DNA-gaaga. Talaalkani sidoo kale maahan fayras nool sidaa darteed kuma qaadsiin karo COVID-19.

Haddii aad su'aalo ka qabtid tallaalka, daryeel bixiye caafimaad oo la shaqeeya qoyskaaga ayaa laga yaabaa inuu kaa caawiyo ka jawaabidda su;aalahaas. Haddii aadan la xiriiri karin daryeel bixiye caafimaad, waxaad la xiriiri kartaa Xarunta Kheyraadka iyo Soo-kabashada Magaalada waxaanan ku dadaali doonaa inaan kugu xirno macluumaadka aad uga baahan tahay ilaha caafimaadka ee xirfadlayaasha.

Waxa ugu fiican ee aan dhamaanteen samayn karno waqtigan waa inaan feejignaano oo aan ilaalino qoyska iyo deriska annagoo sii wadayna xirashada maaskarooyin tayo sare leh, inaan dhaqno gacamaheena inta badan, aan kala fogaano, iskana ilaalino kulamada bulshada. Haddii aad ka qaybgashay kulanno bulsheed, Waaxda Caafimaadka Vermont waxay kugula talineysaa in si dhakhso leh laguu baaro ka dib kulanka iyo sidoo kale 7 maalmood kadib munaasabada. Haddii aad u baahan tahay maaskaro, fadlan la xiriir RRC. Dhamaanteen waan ku wada jirnaa arrintan.

Deeqaha Hawada-Nadiifinta

Qalabyada sifeeyayaasha hawada ayaa la muujiyey inay hawada ka saaraan qaar ka mid ah walxaha fayraska waxayna gacan ka geystaan yareynta walxahaas – laakiin ma baabi’yaan! – halista gudbinta cudurka marka lagu jiro goobaha gudaha ah. Magaalada Burlington waxay bilaabi doontaa barnaamij cusub oo deeq bixin ah oo la xiriira nadiifinta hawada iyadoo lagu dadaalayo sidii loo bixin lahaa qalabyo nadiifiya hawada kuwaas oo si bilaash ah loo siinayo ganacsiyada xarumahooda ku yaaliin Burlington iyo meelaha aan macaash doonka ahayn ee laga yaabo inay qoysas badan ay wadaagaan. Kuwa helaya deeqda waxay heli doonaan caawimaad ku aadan soo iibsiga iyo rakibaada aaladda sifeynta hawada. Codsashada waxay furnaan doontaa hal toddobaad, laga bilaabo Isniinta 11^{ka} Janaayo illaa 18^{ka} Janaayo, 2021. Codsiyada soo daaha waa la aqbali doonaa, laakiin sahayda/qalabyada ayaa dhamaan kara. Wixii su'aalo ama caawimaadda tarjumaadda ah, fadlan la xiriir BTVEmployer@burlingtonvt.gov. Haddii aad doorbideyso caawimaad luqadeed oo taleefan ah, waxaad RRC ka wici kartaa lambarka 802-755-7239.
